Housekeepers must be rwatchful

For great efforts are being made in this vicinity to sell the alum baking powders, which every physician will inform you are poisonous to the human system.

The official Government tests show Royal Baking Powder to be an absolutely pure and healthful grape cream of tartar baking powder, and care should be taken to prevent the substitution of any other brand in its place.

The Royal powder costs only a fair price per pound, and is cheaper and better at its price than any similar article in the world.
